# How I work

## *Initial Call*

I'll have a chat with you to get a full understanding of your website needs.

## *Price Quote*

You will receive a quote based on your needs. Site creation starts once a price is agreed on and 50% of invoice is paid.

## *First Draft*

Once I receive basic content (wording, pictures), then I draft an initial version of your website.

## *Feedback & Secon Draft*

Using the "Wix Feedback" system, you will be able to let me know what to edit. Based on your feedback, I'll make all updates needed.

## *Your Website*

After the final draft of the website is complete, I will give you a basic training of how to make future updates in Wix or we can discuss options for site maintenance.

## Build Community Connections, One Conversation at a Time.

[Start Today! >](#) [Book Advisory Session >](#)

### About Us

At Dialogistics--A University of Pittsburgh Licensed Start-up-- our work, informed by humanities and social sciences, bridges the gap between research and the real world and seeks to improve the human condition and build community connection.

We fully understand the importance of creating formal and safe spaces for discovering deeper and meaningful relationships. The COVID pandemic as well as recent protests regarding racial injustice have forced us to look at inequities embedded in our modern society, tying into larger conversations about race, ethnicity, discrimination, and institutionalized racism. Human societies face very serious challenges and addressing everyone's well-being is a pressing issue.

Reflecting on the wide gaps that separate us, it is crucial that we all work together to create space for conversations devoted to discovering deeper connections, building bridges, and learning about each other's lives to create a safe, healthy, just, and inclusive environment for everyone.
