# About me

I'm Sofia, a digital marketing specialist and consultant.

I provide web solutions for small businesses and individuals that are looking to grow.

I pay a great deal of attention to details, so that anything that I present has a good image and effective message.

Let me help you grow your business!

### Initial Call

I'll have a chat with you to get a full understanding of your website needs.

## Price Quote

You will receive a quote based on your needs. Site creation starts once a price is agreed on and 50% of invoice is paid.

# First Draft

Once I receive basic content (wording, pictures), then I draft an initial version of your website.

# Feedback & Secon Draft

Using the "Wix Feedback" system, you will be able to let me know what to edit. Based on your feedback, I'll make all updates needed.

# How I work

# Your Website

After the final draft of the website is complete, I will give you a basic training of how to make future updates in Wix or we can discuss options for site maintenance.
